

Delivery Update September 18

This weeks' bulletin contains updates about the following destinations & national holidays. In case of any questions please contact one of the team on 0117 977 6655

India

Following heavy monsoon rains, severe floods have occurred in Southern India, specifically in the Kerala region on the Western side of the country. This has damaged the infrastructure of the regions roads, houses and other important structures. WE can expect severe delays of between 14 days (most southern regions (Andhra Pradesh Karnataka, and Tamil Nadu) and 35 days can be expected for Kerala which has suffered the worst of the weather.

Japan

Japan Post have informed us that the areas of Gifu, Kyoto, Osaka, Hyogo, Okayama, Hiroshima, Tokushima, Ehime, and Kochi in Western Japan have experienced typhoons, heavy rain and massive flooding. As a result, many parcel processing sites have been closed and will remain closed until the situation improves. Some roads and highways have become inaccessible to vehicles further delaying the delivery of parcels to the area.

The postcode areas currently affected by this are those that start with code 50, 53-59, 60-62, 65-67, 70-73, 76, 78-79 are currently affected.

South Korea

South Korea has been struck by a Typhoon. Many flight had been cancelled or delayed at Incheon Airport in Seoul. This also affects the EMS items to Jeju-island. The delayed flights mainly concerned the following postcode: 63000 - 63644.

South Africa

Update

The South African Post Office (SAPO) says that it is clearing the mail backlog that built up during the recently resolved nationwide industrial action by its employees. Sapo has committed to clearing the massive backlog within the next three weeks, and we will continue to monitor their progress. But large delays should be expected until this is resolved.
